

SKIRTEC

"Simply Better"

Skirtec's APD12535-Wh, recently installed in an office fit-out.

The Electrical Contractor was pleasantly surprised at the ease of installation and wanted a product to match the existing wooden skirting and wall finish of the "Queenslander".

"The Skirtec ducting was simple to install, saving a lot of time, and my client was very happy with the overall finish. It matched the décor perfectly."
